ORGANIZATION OF CITY GOVERNMENT.

TUESDAY, January 4, 1898.

The members elect of the city government for the municipal year of 1898, having met for organization agreeably to the provisions of the city charter, the oath of office by law prescribed was administered to the mayor-elect, GEORGE H. EAMES, by Hon. Francis A. Perry, who then introduced him to the aldermen and councilmen present. After roll call by the city clerk, His Honor, Mayor Eames, administered the oath of office to the following members elect of the boards of aldermen and council, to wit:

BOARD OF ALDERMEN.

- Ward 1.—HERSCHEL J. FOWLER.
- Ward 2.—FLAVEL BEAL.
- Ward 3.—HENRY N. STONE.
- Ward 4.—WALTER R. PORTER.
- Ward 5.—WILSON J. NIMS.

BOARD OF COMMON COUNCIL.

- Ward 1.—GEORGE F. LITTLE.
WARREN W. BISSELL.
GEORGE M. REED.
- Ward 2.—LOUIS A. NIMS.
AUSTIN A. ELLIS.
SAMUEL PATRICK.

Ward 3.—OSGOOD W. UPHAM.
GEORGE F. STONE.
CHARLES E. WARD.

Ward 4.—FRED E. BARRETT.
ROBERT T. KINGSBURY.
MYRON C. ELLIS.

Ward 5.—CORNELIUS E. SULLIVAN.
JOHN DRISCOLL.
JOHN DEIHL.

Prayer was offered by Rev. F. L. Sprague, after which the mayor delivered his inaugural address.

After the prayer and inaugural address, Jerry P. Wellman was elected city clerk, and Joseph F. Emmons, city messenger, and the city councils then adjourned until 7.30 o'clock.

At 7.30 p. m., the common council organized by the choice of Robert T. Kingsbury, as president, and Herbert O. Wardwell, clerk.

THE MAYOR'S ADDRESS.

Gentlemen of the City Councils:

At the commencement of our municipal year it is customary for the mayor to present in a brief way the condition of affairs in the various departments, and make some suggestions as to the work for the coming year. In the first place we will consider the finances. The city has bonds outstanding as follows:

Old water bonds,	\$35,000 00
Railroad gratuity bonds,	100,000 00
Sewerage bonds,	70,000 00
1887 water bonds,	37,000 00
1891 water bonds,	45,000 00
Total,	<u>\$287,000 00</u>

This is a reduction for the past year of \$15,000 paid on the railroad bonds. July 1st of this year there will be due \$15,000 more of the same, and on Jan. 1, 1899, there will come due \$35,000, the last of the old water bonds. The finance committee have carefully considered the means of paying these sums and recommend that the first (\$15,000) be paid with money raised for that purpose by taxation—and the latter (\$35,000) be paid by using the dividends from the water loan sinking funds now in the

treasury (about \$2,800), and others which may be paid during the year, if any, together with enough from the treasury to make \$10,000, and the remainder (\$25,000) by money borrowed on time or demand notes. I would urge the adoption of this recommendation, hoping we may realize from our water loan sinking funds in the several banks (\$42,566.40 in total) enough to meet these notes.

The city's assets Dec. 1, 1897, were as follows:

Due on 1895 taxes,	\$127 70
Due on 1896 taxes,	2,496 96
Due on 1897 taxes,	23,841 43
Due for street sprinkling,	487 95

Water loan sinking funds:

In Cheshire Provident Institution,	26,610 08
In Keene Five Cents Savings Bank,	11,341 93
In Keene Guaranty Savings Bank,	4,614 39
Balance in hands of treasurer,	19,058 82
Total,	<u>\$88,579 26</u>

The property belonging to the city is appraised as follows:

City water works,	\$200,000 00
City hall building,	35,500 00
Fire department,	13,000 00
Land and buildings, Vernon street,	10,000 00
Perry place, Washington street,	15,500 00
City pasture,	2,000 00
Stone crushing works and land,	2,000 00
Water works stock and tools,	3,000 00
Highway tools, horses and steam roller,	3,500 00

Liquor in hands of agent,	\$205 52
Sprinklers,	700 00
	<hr/>
	\$285,405 52
Add assets,	88,579 26
	<hr/>
	\$373,984 78

For the last six years a discount of 2 per cent. has been allowed on taxes paid on or before July 15th. As this brings a large amount of money into the treasury early in the year and saves borrowing to that extent to meet current expenses, I recommend that the city councils adopt the same method for this year. Recommendations for appropriations will be found on page 95 of the City Report. I will not read them. They do not vary materially from last year.

HIGHWAYS AND BRIDGES.

The problem of building roads and keeping them in repair is one of the great questions of the day. The past season has been one of the most difficult to keep them in good order that has been known in many years. Perhaps you will say this is the same old story repeated every year. But it is only necessary to remind you, gentlemen, that the rains were so excessive in the mid-summer that farmers' growing crops in many places were practically destroyed, and their hay crop after being grown was nearly spoiled, either standing or cut, there being several weeks of rain with extremely high water, and this was at a time when our suburban roads were newly rebuilt, and easy to be washed; and no sooner were they repaired, as we hoped for the summer, than it became necessary to take

money that had been allotted to some other locality and rebuild all we had done before. And it is an actual fact that some pieces had to be built the third time. I mention these facts to show that with a certain amount appropriated it is impossible to tell what can be accomplished, and also to show how discouraging it was to our mayor, our committee on streets and our superintendent of highways, who all worked zealously and found the elements working against them.

There was also last year more money expended on bridges than has been usual. The West street bridge had been left longer than it ought, expecting and hoping for an electric railroad, in which event the repairs would need to be different. But it could wait no longer and had to be thoroughly renewed. The Island street bridge also required entire new wood-work, the floor timbers being of best hard pine, and these bridges will need no more outlay, probably, for ten years and then only new planking. In the coming year we hope a more favorable season for the roads and less expense on bridges, so more can be accomplished on the roads. We believe the people want good roads and are willing to pay for them, only requiring that their money shall be judiciously used.

The committee on finance have recommended \$500 for macadam and repairs. This, I understand, is designed to top dress our roads of this kind before they become more rough and uneven, and we recommend a trial of some substance more durable than can be furnished by our quarry at the crusher. Then our outlying roads and city streets that are not used generally for heavy teaming should be covered, when necessary, with such gravel as is obtainable

in our city pasture and in several banks in different parts of the city, and it should be our rule to build a heavy road bed as far as we go—something that will not cut through the first summer and thereby lose what we have done—but use plenty of material, well packed and rolled, and for such roads and streets it answers a long time, nearly as well as macadam—probably at one-third the cost. If we can make thorough roads in this manner and our appropriation of \$10,000 recommended by the committee on finance should become exhausted and we found need of more, I think public sentiment would uphold us in using more. Understand me, gentlemen of the city councils, I do not recommend any increase in the appropriation and hope it will prove sufficient for the year, but I think if anything would reconcile our taxpayers to an increase of rates, it would be for money used on our highways. There are repairs contemplated on Court street that I will call particular attention to when considering the water works.

WATER WORKS.

The report shows the net earnings of this department to be \$18,007.94, a slight increase from last year, and the works to be in excellent condition except as below noted. The commissioners ask us to consider the one weak place in the system, which is the old cement pipe commencing on Court street opposite the Deacon Metcalf farm and extending to Goose pond. This is what they say:

“The superintendent has in the past found difficulty in connecting the relaid portions of this line with the old pipe, on account of its dilapidated condition, having in some cases been obliged to put in a few more lengths of

iron pipe than intended, in order to find a place in the cement pipe suitable for making the connection.

This illustrates the unserviceable condition of this main. As iron pipe can now be purchased at the lowest price ever known, and it is a well understood fact that work of this nature can be done to much better advantage after due preparation, we advise a liberal appropriation this year, having in view the completion of the work in the near future. We may in this way avoid being compelled to do the work at great disadvantage when unprepared."

These pipes may last for a time, but they are considered as somewhat of a risk, and as the "strength of a chain is only that of its weakest link," so the usefulness of our twenty-five or thirty miles of pipe in the city might be seriously impaired in case of a fire, if an accident should happen to these supply pipes from Goose pond. To be sure, we have the Roxbury pond to fall back upon in such a case, but since the abandonment of the Octagon reservoir we only have the water as it comes over Beech hill in a single pipe, and it is not supposed to be sufficient in volume to meet the wants of all our apparatus in the case of a serious conflagration. I recommend a careful examination of this matter, knowing that the commissioners have the best interests of the city at heart in making their suggestions. It is the intention of the highway department to repair Court street the coming spring, over the same road where this old pipe is used, and if the pipes are relaid the work should be done early so the street could be finished in good shape afterward. It is estimated that at the present price of pipe and by planning early so our city teams could do the work of distributing the pipe before their busy season in the spring, the whole job clear to

Goose pond could be done and increase our interest account not over \$240 per year.

FIRE DEPARTMENT.

Chief Engineer Jones reports the total fire loss the past year at \$2,720—the smallest for many years. One year it is given as \$2,075, but upon investigation it seems there was property destroyed to the value of over \$9,000, and insurance paid, leaving net loss as given, and this was the way reports were made out up to and including 1894, since which time the whole loss has been given, which is the true basis for comparison. The engineers have made very thorough inspection of the buildings in the thickly settled portions of the city and remedied many defects that might easily have brought fires upon us. The vigilance of the engineers, the quick response of all the firemen in the different organizations to any alarm, the neatness of their rooms and apparatus, gives Keene just cause for being proud of this department. Some new hose was added last year and request is made in the chief's communication at this time for more; and also for more alarm boxes. This will come before the councils in due time for their consideration.

POLICE.

Our regular police force consists of the city marshal, who is on duty during the day and evening, and two night watchmen who give good protection to property adjacent to the Square and upper Main street. The number of arrests have been more than the average, and a large proportion from the usual cause.

PARKS.

We would recognize at this time the generosity of one of our respected citizens in the gifts he has made to the city from time to time of lands for public parks. These will be more and more appreciated as time passes and we become the "greater Keene."

It would seem appropriate another summer for the city government to take a more active interest in the park at West Keene, which bears the donor's name, and in coöperation with the commissioner, have more work done in trimming and laying out roads and in other ways beautifying and improving the grounds.

MISCELLANEOUS.

The city solicitor renders a statement relative to the city's financial interest in the Symonds property. It is quite a lengthy communication and I refer you to page 155 of the City Report. Our public library is in a prosperous condition. Besides the nearly 10,000 books upon its shelves, it has a pleasant reading room where all may go and find magazines, newspapers and books of reference. Our streets are well lighted, our concrete walks well kept and our city generally has a thrifty and prosperous appearance. But there are many among us who are unfortunate and require help at our hands. Let it be given cheerfully where deserved. There are those unemployed who would be glad of work if they could obtain it. Our manufacturing industries are mostly doing a fairly good business, hoping for more active trade. We have added some during the year, and it should be our aim to aid and encourage enterprise and capital, if by so doing we can cause

more machinery to be operated and work given to our citizens.

We have, in common with most villages and cities, some lines of trade that indulge in excesses that are detrimental to the welfare of our community, that injure our reputation and bring misery into many homes. There should be a restraint put upon such places, so that, in some degree, we may remove temptation from our weaker brother, protect the morals of our sons and help the laborer to save his hard earned money for the needy wife and children at home.

Gentlemen of the city councils, we have been chosen by the people to administer the affairs of the city for the coming year. Let us observe due respect for the rights of each board and for every individual therein. Our motives, I trust, are all alike—to do what is for the best interests of the city. And though we at times may honestly differ as to methods, I am sure that fair discussion and full understanding will find a way out that is honorable and amicable and fair to all.

Passed January 20, 1898.

AN ORDINANCE amending Section 3, Chapter V, city ordinances.

Be it ordained by the city councils of the city of Keene, as follows:

That Section 3 of Chapter V, of the city ordinances is hereby repealed, and the following is substituted in place thereof:

SECTION 3. In the month of January, annually, or whenever a vacancy shall occur, there shall be chosen by the city councils in joint convention, a superintendent of public cemeteries, who in addition to the duties before prescribed in this ordinance shall perform the duties of sexton. He shall dispose of vacant lots, at their appraisal, by deed signed by the mayor under the corporate seal of the city; but in no instance shall possession, or a deed for a lot, be given until the whole amount of the

appraisal is paid or satisfactory security given for payment. If payment is not made within ninety days after the selection of a lot by a purchaser, the lot shall be subject to sale or reappraisal as other unsold lots. He shall see that all cemeteries are kept properly inclosed and in a neat and orderly condition. He shall see that all lots, for the care of which special funds are held in trust by the city, are kept in as good condition as the interest upon such funds will permit. He shall do such work upon any given lot as he may be paid for doing by anyone interested therein. He shall superintend and execute such improvements and labor upon the cemeteries as the said committee may order. He shall have the power under the direction of said committee to employ all such labor as may be necessary in the discharge of his duties, and shall file each week in the office of the city clerk, a payroll for the preceding week, approved by said superintendent, setting forth the names of all persons hired, the length of time each has been employed, and the amount of the compensation of each employee. He shall collect and receive all moneys pertaining to his office as superintendent and sexton, or paid by individuals for special work, and shall deposit the same with the city treasurer on the last day of each month, taking his receipt therefor, which shall be treated as a fund for the payment of all bills which may be authorized by said superintendent on account of the cemeteries. He shall pay no bills of any kind. Under the direction of said committee he shall have the power to contract for such materials and supplies as it may order, and all bills against the city on account of cemeteries, except the weekly payrolls, shall be approved by the superintendent and the said committee, and when duly audited shall be paid. He shall receive in addition to the salary provided by ordinance, the sum of one dollar and seventy-five cents per day for services actually rendered as superintendent and sexton, and the sum of one hundred dollars per year for the use of a team. He shall file his

account for personal services and use of horse with the city clerk on the first day of each month, which shall be approved by the said committee, and when audited shall be paid, and at the same time he shall file an itemized statement of all sums received by him during the preceding month, and a voucher that the same have been deposited with the city treasurer.

Passed January 20, 1898.

AN ORDINANCE in relation to surface drains or sewers.

Be it ordained by the city councils of the city of Keene, as follows:

SECTION 1. The general management of all surface or street drains and sewers is hereby vested in the board of water commissioners, and the immediate care and supervision thereof shall be vested in the superintendent of water works and sewers.

SECT. 2. Said commissioners and superintendent shall have all the powers and perform the duties in relation thereto which have heretofore been vested and performed by the superintendent of highways, and shall exercise said power and perform said duties in accordance with Chapter IV, city ordinances, so far as the same can be made applicable thereto.

SECT. 3. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed.

SECT. 4. This ordinance shall take effect upon its passage.

Passed January 20, 1898.

A JOINT RESOLUTION relating to the pay of a clerk for the board of health.

Resolved by the city councils of the city of Keene, as follows:

	<hr/>	
Net earnings,		\$18,287 90

It must be taken into consideration that the drainage system of our city has been placed under the supervision of the water and sewer board during the past season, thus bringing more care and expense under their supervision. Also, it must be borne in mind that, at our country's call for aid in the early season, our superintendent, Capt. Paul F. Babbidge, deemed it his duty to go to the front. He was granted a leave of absence, taking him away from duty about six months of our busiest construction season. Our assistant superintendent, Mr. John A. Denison, was therefore chosen by the honorable board to take the place made vacant by our superintendent. We must say in justice to Mr. Denison that he has proved himself entirely competent to cope with the several duties that have been placed before him and has given entire satisfaction we think to all.

The following has been accomplished during the past season: We have replaced Baker and Kelleher streets two-inch pipe with a six-inch pipe; we have now a six-inch line running from Main street through Baker and Kelleher

streets to Marlboro' street, giving a much better domestic service, and adding one hydrant to the fire service. Also, laying 2,100 feet of eight-inch pipe on Marlboro' street from the Davis place to Mrs. Taft's, adding two hydrants to the fire service in that section; also, other small extensions that will be noted in the superintendent's report.

We must still call your attention to the much needed appropriations to continue the work of relaying Sylvan lake main; the time will surely come when this pipe will have to be relaid.

N. G. GURNSEY,

SUPERINTENDENT'S REPORT.

To the Board of Water, Sewer and Drain Commissioners:

GENTLEMEN.—I herewith submit the twenty-ninth annual report of the water department, the fifteenth annual report of the sewer department, and the first annual report of the drain department.

ASSESSMENT AND COLLECTION OF RENTALS, ETC.

Semi-annual assessments of rents for use of water are made on the first days of June and December, except metered water, which is due in March, June, September and December, and are payable to the collector, who will be at his office at suitable times for that purpose, of which due notice will from time to time be given; and all regular patrons of the works making payment within forty days from the date of any such assessment—with the understanding that no rebate is to be claimed for any temporary discontinuance of any use for which payment is made—shall be entitled to a discount of twenty per cent.

from the regular rates; and all rates not paid in advance or during the forty days from the date of assessment as aforesaid, are to be charged at full advertised rates, and to be deemed due and payable at the expiration of six months' use.

[CHAPTER IV, SECTION 18, CITY ORDINANCES.]

The superintendent shall notify all water takers who are in arrears one assessment that immediate payment is necessary; and if such payment is not made within thirty days after such notice is given, the superintendent shall then immediately shut off the water from the premises occupied by such persons until the assessment is paid in full, with an additional charge of one dollar to cover expenses.

SCHEDULE OF ANNUAL RATES.

For the third 1,000 gallons per day,	05
All over 3,000 gallons per day,	02½

Drinking fountains and watering places for public use, and hydrants or fixtures for the protection of the property of any private individuals against fire, provided and maintained at private expense by approval of the commissioners, free.

For all other purposes not enumerated, special rates may be made by the commissioners. Rates for temporary uses, or for periods of less than one year, may be charged at an advance of fifty to one hundred per cent. on the schedule of annual rates, according to the season and nature of the use.

The minimum rate for garden hose or lawn sprinkler is based upon the use of a one-fourth inch jet or its equivalent, not exceeding one hour each day for the season of four months from June to September, and no deduction will be made for partial discontinuance of use.

The rate for ornamental fountains is based upon the equivalent of a one-sixteenth inch jet at standard pressure, averaging not exceeding four hours' daily use during the months of June to September, inclusive, and subject to such other restrictions as occasion may require, without deduction for partial discontinuance of use.

Approved and adopted by the board of water and sewer commissioners for the city of Keene, April 13, 1889.

The works are in good condition; three hydrants have been added to the fire service, one at the corner of Baker and Kelleher streets, and two on lower Marlboro street. There are several streets that are now supplied with two-inch pipe that should be relaid with larger sizes, both for domestic and fire purposes.

The surface drains of the city were added to the water and sewer department early in the spring. Considerable work has been done in extensions and otherwise improving them. As no separate account was ever kept as to the cost of maintenance, no comparison can be made with former years; they are in good working order.

I respectfully recommend that the brick sewer in Roxbury street be extended to Washington street, with the view of taking the old stone drain out from under the city hall and the Cheshire Provident buildings, then with a large pipe to the junction of the Court street drain, taking all the water from Court street through the brick sewer, relieving the pipe below the band stand, which will then be able to take care of water from that point to Emerald street.

That a system be adopted to drain the north part of the city. That Beaver brook be straightened and graded from its outlet to Roxbury street. That more catch basins be built.

Respectfully submitted,

PAUL F. BABIDGE,
Superintendent.

REPORT OF
SUPERINTENDENT OF HIGHWAYS.

To His Honor the Mayor and City Councils:

I herewith submit the following report as superintendent of highways, in the city of Keene, for the year ending December 1, 1898.

LIST OF PROPERTY IN MY POSSESSION.

Eight horses, ten harnesses, four carts, one wagon, three sleds, sixteen blankets, fifteen snow plows, two snow rollers, two large and one small roller, one steam roller, three chains, four spread chains, eight halters, one snow scraper, two screens, eight whiffletrees, eight fly nets, two champion road scrapers, one Towne's macadam scraper, three plows, ten picks, eight bog hoes, one lawn mower, twenty shovels, two striking hammers, three face hammers, four bush hooks, four hoes, five stone pickers, four hooks, eight iron bars, three saws, four augers, one level, three bush scythes and snaths, one grindstone, three snow shovels, two axes, two rakes, three drills, two dump barrows, three tampers, one derrick, five sign posts, six pails, bits and brace, two hundred pounds of spikes, two paving hammers, one ice scraper, two ladders, six baskets, one hay cutter, eight surcingles, four whips, four brushes, four curry combs, one oil can, twelve lanterns, four wrenches, two small hammers, eight drills, shims and wedges, one stone boat, 3,000 feet of lumber, two pairs of shafts, one set of fall blocks, one vise, one tool box, four stone boat

planks, two carts and harnesses, two bog hoes, five striking hammers, seven sledge hammers, eighteen small drills, forty large drills, one saw, two wrenches, one vise, stone boat.

The streets, drains and bridges are in as good repair as usual. We have done considerable work on the following streets: Lower Main street near city pasture; also on Winchester street, putting in new stone road; also side walk on Winchester street. West street has been graveled from factory to bridge and from Pearl street to C. P. Pitcher's; also a part of Park avenue. The Court street road has been improved. There was quite a large amount of work done on the Gilsum, Concord and South Keene roads. There has been cobble stone road built on Goodnow road. The work commenced last year on Railroad street has been completed, a stone road being finished to the Beaver mills. A new cycle path has been built from Pearl street to William H. Woodward's, and the Court street cycle path continued from stone bridge to the four corners. The macadam on Court, Washington and West streets has been resurfaced or patched. For expenses, see finance report.

Respectfully,

E. A. NIMS,
Superintendent.

REPORT OF PARK COMMISSIONER.

To the Mayor and City Councils:

Appropriation, \$200 00

The expenditures have been as follows:

Paid bills of trees, shrubs and plants,	\$45 50
J. Donahue, work,	7 00
H. H. Tenney, bills for work,	78 85
Rural Improvement Society, work,	12 00
W. H. Elliot, team work,	12 25
Trees and plants,	21 50
Stephen Smith, work,	5 02
	<hr/>
	\$182 12

With one bill unpaid, the appropriation is mostly expended.

Great numbers of perennials have been planted of which no account is made. The labor was for thinning trees in all the parks, and cutting birch brush. The main item however, was for completing the wood road from the Octagon north to cemetery. Bicycle measure, this lane is six-tenths of a mile. I have called the lane Spring Lane, on account of the so-called miracle spring. In Robin Hood forest, there are so many roads and places where five ways meet, that I have been asked for a map or plan of the place. Perhaps a small map of a size to be bound in the city report would answer present requirement.

G. A. WHEELOCK,
Commissioner.

REPORT OF
CHIEF ENGINEER OF FIRE DEPARTMENT.

To His Honor the Mayor and Gentlemen of the City Councils :

I herewith present the following report of the fire department, for the year ending November 30, 1898.

During the year the department has been called out seventeen times. Once for a brush fire, three times for chimneys burning out, and one false alarm.

The losses paid by the insurance companies during the year, upon buildings and their contents, amount to \$26,391.15. Of this sum, \$21,950.60 was for one fire alone.

The apparatus is in good condition. 1,500 feet of hose and one cellar pipe have been purchased during the year. 850 feet of hose have been turned over to the sewer and water department.

One telephone has been put in at the fire station. In case the department is needed outside the city limits, if people would telephone direct to the station instead of going some distance to pull in the nearest box, better results would follow. The men would then know just where to go, and if the fire was some distance away they could start prepared for the long run.

The department consists of sixty-nine men. Four engineers, Steamer and Hose Co., twenty-five men, Washington Hook and Ladder Co., twenty men, and Deluge Hose Co., twenty men.

Some uniforms for the men have been repaired, and the Deluge Hose Co., furnished with new caps.

The fire alarm service, under the care of Superintendent Emmons, is in good condition. I would suggest that three new boxes be added this coming year. One to be put on Marlboro' street, somewhere at the lower end of the street, one near Giffin's mill, and one to be reserved to replace one that may need repairs.

INVENTORY OF PROPERTY.

Steamer Button No. 2, Steamer Amoskeag No. 2, hand engine at hospital, hand engine at South Keene, Deluge hose carriage, two jumpers, three hook and ladder trucks, steamer hose carriage, 5,050 feet of hose, nine fire extinguishers, six for the department and three at city hall, fire alarm, engineers' lanterns, six hydrant gates, one Y coupling, rubber coats, uniforms of Steamer Co., uniforms of Washington Hook and Ladder Co., uniforms of Deluge Hose Co., one Siamese and one cellar pipe.

FIRE ALARM TELEGRAPH.

Location of boxes and instructions to firemen and officers:

SIGNALS.

The following signals were adopted by the board of engineers, December 2, 1887, and are still in force.

1. The superintendent has the right to strike one blow upon the bells at any time, to test the circuit; also to ring in one round from any box, preceded by a single blow, exactly five minutes after the noon stroke, on Saturdays, for the purpose of testing the boxes.

2. The signal 22 repeated on the bells is to call the firemen to their houses for further orders.

3. Two blows struck upon the bells after a fire alarm is a signal to "limber up," and recalls all firemen and apparatus to the engine houses, unless specially detailed for duty.

4. In case of a serious fire the engineers may cause a second alarm to be sounded from the nearest box. A second alarm is given by striking ten blows, followed by the box number.

5. As box 9, which is located on city hall, is still likely to be used for a general alarm, and to be pulled for a fire which is not in or near the square, the engineers will ring in a second alarm of four full rounds from this box, if there is a fire of any magnitude near the square.

6. The old alarm on city hall will only be rung between 9 p. m., and 6 a. m., except in case of serious fire.

7. Arrangements have been made with the Beaver Mills Co., and alarms of fire will be given on their whistle same as by the bells.

GENERAL RULES.

Firemen as well as citizens should familiarize themselves with the following rules for giving alarms of fire.

1. Never pull a box for a fire seen at a distance.
2. Never pull a box while the alarm bells are ringing, nor until a box has completed its four rounds. Two boxes cannot operate together and neither will work if two are pulled at the same time. Never pull two alarms or two boxes for the same fire. The engineers will sound second alarms if necessary.
3. To ring in an alarm, break the glass in the key box and open the outside door with the key. Pull down the brass crank, seen inside, *till it stops*, then let go. Then let the box alone. The clock will be seen or heard to be running, and the alarm will follow in half a minute or so. Close the box and remove the key.
4. Remember that the firemen will come directly to the box which has been pulled, and be sure that someone stays at the box to direct them to the fire.

TELEPHONE ALARMS.

Box 6, which is located in the central telephone office, is the box which will be pulled to sound all alarms of fire sent in by telephone. When this box is pulled, firemen and all others can ascertain the location of the fire from the telephone office.

Do not send a telephone alarm if there is an alarm box within reasonable distance. Box alarms are always the surest and best. Telephones can seldom be used during thunder showers; the boxes can always be used.

To send in a telephone alarm, call the central office. Tell the operator slowly, first, the ward, then the street and house where the fire is situated. The operator will repeat, "Fire, ward so and so, such street or house." Answer, "All right," if you are correctly understood. If the fire is in South Keene or West Keene, give the fact

instead of the ward number. The operator will then leave the telephone and sound the alarm.

In conclusion, I take this opportunity in behalf of the board of engineers, to extend our thanks to all members of the city government, and to all citizens who have in any way whatever rendered the department assistance during the past year.

I wish to extend my sincere thanks to my assistant engineers, to all officers and members of the department for their suggestions, assistance, hearty support, and their readiness to respond to all calls of duty.

Very respectfully,

JOHN Q. JONES,
Chief Engineer.

Keene, December 1, 1898.

REPORT OF
SUPERINTENDENT OF FIRE ALARM.

To His Honor the Mayor and Gentlemen of the City Councils:

The system is in good condition and reliable. Some boxes should be overhauled and cleaned. The first and third loop have been repaired and new sections of wire added, old cross arms removed and new ones put in their places, greatly improving the section. A spare box is still needed.

Respectfully,

J. F. EMMONS,
Superintendent of Fire Alarm Telegraph.

REPORT OF CITY PHYSICIAN.

To the Honorable Mayor and City Councils:

During the past year I have made 151 visits at the homes of patients, 10 visits to the police station, and 37 calls at my office have been made in the treatment of the following cases, viz.: eight of tonsilitis, two each of alcoholism, bronchitis, gastro-enteritis, neurasthenia, and lacerated wounds, one each of corneal ulcer, consumption, melancholia, mumps, pneumonia, pleurisy, tertiary syphilis, and valvular heart disease.

One case was sent to the insane asylum at Concord, two patients have died, and there has been one birth during the year.

There are, I believe, no other facts of importance which should be brought to your attention.

Respectfully submitted,

FRANK M. DINSMOOR, M. D.,
City Physician.

REPORT OF BOARD OF HEALTH.

To His Honor the Mayor and Members of the City Councils:

The number of complaints for nuisances has been less during the past year. The whole number has been thirty-six, upon which orders have been issued. There have been many complaints in addition to the above of so trivial a character that they were not made the subject of record. In the month of September, the following letter of instructions was issued to the plumbers.

DEAR SIRs:

You are hereby notified that after this date, it will be expected by the board, that the first clause of Rule XI, Section 19, of the city ordinances, will be strictly complied with. The board is convinced that thorough flushing of closets is not possible by any method at present extant, excepting that of the flush tank placed at a sufficient height above the bowl.

CONTAGIOUS DISEASES.

There have been thirteen cases of diphtheria during the year. Seven of these cases occurred on Marlboro' street, within a radius of a thousand feet. Four of the cases occurred in one family on Oak street. One of the remaining cases on Wilbur street, and the other on High street.

But one case of scarlet fever has been reported during the year, and seven cases of typhoid fever, two of which were reported to the board as originating out of town; three of the remaining cases were located outside of the

sewerage system. In two of the cases, the origin of the disease could not be discovered. Twenty-six cases of measles of a mild type were reported during the early spring months, which number probably represents but a small proportion of whole number which really occurred. In the opinion of the board, the sewer ought to be extended through Oak street, and from Willow street to such a point as will efficiently serve Nos. 17 and 21 of said street.

The board further recommends that a system of sewerage be constructed for the relief of Portland, Castle, a part of Colorado, Park and Ashuelot streets, and we invite the consideration of your honorable body to the necessity of providing in the near future for a system which shall furnish a sewer outlet for that section of our city known as Knightsville.

Respectfully submitted,

DON H. WOODWARD,
GEORGE W. FLAGG,
JESSE B. HYLAND,
Board of Health.

REPORT OF SUPERINTENDENT OF CEMETERIES.

To the Honorable Mayor and City Councils :

The several cemeteries of the city have received the usual amount of care and been kept in a neat and orderly condition.

Lots placed in charge of the superintendent by the owners, and all lots for the care of which special funds are held in trust by the city, have received proper attention, and the trees, paths, avenues and grass plots such labor as seemed to be necessary.

The old hearse house in Woodland cemetery is to be sold, by order of the councils, and a tool house built on back land, thus improving the Beaver street side of the enclosure.

A change in the ordinance relating to cemeteries has placed the management of the income derived from trust funds, care of lots and sale of lots, with other departments of the city, in the care of the councils, and for the itemized account of receipts and expenditures for the year I refer to the report of the city treasurer and that of the finance committee under the head of cemeteries.

I herewith submit the following report of my receipts from May 23, 1898 to Dec. 1, 1898.

June. Graves,	\$10.00,	labor,	\$1.00,	
	grass, .50,			\$11 50
July. Graves,	\$22.00,	labor,	\$6.50,	grass,
	\$10.34,	loam,	\$1.00,	fertilizer, \$1.00,
				40 84

Aug. Graves, \$8.00, labor, \$3.00,	\$11 00
Sept. Graves, \$10.50, grass, \$5.00,	
grave lot, \$5.00,	20 50
Oct. Graves, \$13.50, labor, \$20.00, fer-	
tilizers, \$3.00, loam, \$3.00, grass	
seed, \$1.00,	40 50
	<hr/>
	\$124 34

All of which I have deposited with the city treasurer and hold his receipts therefor.

Respectfully,

MILAN F. JONES,
Superintendent.

December 15, 1898.
